

MinnFinnTM MAX & NEUFINN

Biodegradable Pond Treatment

The Neutralizable & Environmentally
Friendly Way to Treat Your Fish!

Are you ready for a non-toxic, biodegradable & neutralizable treatment for your Koi? The wait is over, here is **MinnFinn**. **MinnFinn** is the new product developed to be easy to use, effective at ridding most parasites and external bacterial infections, often in one treatment. Imagine being able to treat your pond, neutralize the treatment with **NeuFinn** and not have to worry about adding chemicals that are harmful to "You" the environment, your pond and possibly your fish over the long term.

Many products available are not only toxic to you but also the environment. Do you really want to use a product that contains cancer causing agents like Formalin and Malachite Green? Until now there was no real alternative. **MinnFinn** now offers that alternative, no toxicity to you, no toxicity to the environment, no water changes and no worries.

Soon to be available for both Fresh and Saltwater aquarium fish!

Active Ingredient:
 Hydrogen Peroxide22.0%
 Peracetic Acid 5.0%
 Other Ingredients:.....73.0%
 Total..... 100.0%

BENEFITS OF MINNFINN MAX

- Water changes not required after treatment
- Completely eliminated after neutralization
- No harmful environmental impact
- Not cancer causing unlike products containing formalin and malachite green
- Increases dissolved oxygen

STATEMENT OF PRACTICAL TREATMENT

Avoid contact with skin and if exposed rinse thoroughly with water and apply **NeuFinn**. In case of contact with eyes, flush with large amounts of water for at least fifteen (15) minutes. For eyes, get prompt medical attention. If swallowed, drink large amounts of water immediately to dilute. Do not attempt to induce vomiting. Call a physician immediately. For chemical emergency, spill, leak, fire, exposure and accident, call CHEMTREC 1-800-424-9300. Outside the USA and District of Columbia call 703-527-3887.

STORAGE & DISPOSAL

1. Store in original container - NEVER TAMPER WITH VENT.
2. Do not expose to direct sunlight.
3. Maintain temperature below 75°F (24°C)
4. Avoid contact with combustible materials.
5. Avoid contamination from any source, including metals, dust, etc. Such contamination may cause rapid decomposition, generation of large quantities of oxygen gas and high pressures.

Reorder No. 78400-233

APPLICATION OF MINNFINN MAX

1. One bottle treats 8000 gallons
2. Recommended to turn off pump or bypass flow from filter. If water left flowing there may be a temporary effect to the filter.
3. Dilute the required quantity of **MinnFinn MAX** in a bucket that has been filled 3/4's full with water from the pond to be treated or use tap water.
4. Spread the mixture slowly around the entire edge of the pond to ensure good mixing and reducing the potential of an area of high concentration fish may pass through.
5. Let **MinnFinn MAX** treatment run for one (1) hour.
6. See required **NeuFinn** directions for preparation prior to the end of the treatment.
7. Do not use with any other treatments.

APPLICATION OF NEUFINN REQUIRED

1. While the **MinnFinn MAX** treatment is underway, prepare the **NeuFinn** neutralizer for application.
2. In the same bucket used to distribute the **MinnFinn MAX** treatment, mix the required amount of **NeuFinn** neutralizer in a 3/4's full bucket with either pond or tap water. Stir to dissolve neutralizer prior to application.
3. After the one (1) hour **MinnFinn MAX** treatment is complete, apply the dissolved **NeuFinn** neutralizer as you did the **MinnFinn MAX** treatment around the perimeter of the pond.
4. Return water flow to the pond and/or filter.

APPLICATION RATES

For every 100 Gallons of pond water treat and neutralize with the following:

- 0.45 fl. oz. (12.5 mL) of **MinnFinn MAX** Biodegradable Pond Treatment
- 3 teaspoons (17.25 g) of **NeuFinn** Neutralizer

For every 2000 Gallons of pond water treat and neutralize with the following:

- 8.45 fl. oz. (250 mL) of **MinnFinn MAX** Biodegradable Pond Treatment
- 1-1/4 cups (345 g) of **NeuFinn** Neutralizer
